Interim Administrator Jeffery,

The grantee for the Lower Minnesota Collaborative's Chloride Reduction Grant has completed work as outlined in their cost-share agreement. I request that a reimbursement check be sent to:

**Executive Director of Business Services
Eden Prairie Schools ISD #272
8100 School Road
Eden Prairie, MN 55344**

in the amount of:

\$20,000.00

The scope of work was completed in March 2022. Please see attached project summary and receipts.

Please let me know if you have any questions.

Liz Forbes
Grant Program Coordinator
Riley Purgatory Bluff Creek Watershed District
952-607-6481

Chloride Reduction Grant Report Report

Form: Chloride Reduction Grant Report

Your name	Cole, Hagberg
Your title/role in the organization	Maintenance Operations Cordinator
Name of organization	ISD 272
Address	8055 Wallace RD, Eden Prairie, 55344
Your email	chagberg@edenpr.org
Your phone number	(612) 999-3750
Your Project's Name (e.g. "Anderson shoreline restoration")	ISD 272 Chloride reduction
Total project cost (\$)	23802.00
Total grant-eligible cost of project (if different than total project cost) (\$)	
Upload receipts from your project	
Do any of the receipts include purchases that were not related to the project?	Yes
Notes about receipts	We purchased a new Plow truck outfitted with a dump bed and salt spreader with pre-wet and pre-treat options. The invoice that shows we paid for this doesn't break down the exact cost of the salter. I have attached a price sheet with the spreader and all the options we got on it and the total cost of the spreader.
Please upload one or more photos that show the result(s) of the grant.	

File upload	 Chloride_grant_pics_.pdf
To whom and where should the grant payment be sent?	Jason Mutzenberger Executive Director of Business Services Eden Prairie Schools ISD #272 8100 School Road Eden Prairie, MN 55344
Report of Work	<p>We are able to now track how much chloride we are applying at each site. The smart controller tracks amounts and uploads it to our computer when we are parked back at our shop after each use.</p> <p>We are also able to pre-treat lots and sidewalks before snow events. We were already pretreating our lots but this will help us understand better how much salt we are applying and be able to make certain adjustments to our salting procedures that will help us reduce our chloride impact on our community.</p>
What do you think?	Myself and my 3 Grounds employees have all been through smart salter class and we are all 100% on board with reducing our chloride impact.

Dear Cole;

Twin Star Equipment & Mfg is pleased to provide the following quote:

Ice Striker 3400CM 3.4 Cubic yard 240 gallon liquid

HillTip IceStriker™ 3400 Chain Driven Combi is an Electric Poly Hopper Spreader for large trucks. This spreader is unique as it has a built-in tank for the optional pre-wetting system (3.4 Cu.yd material & 240 gallon liquid, and it requires no extra tanks. Additionally it comes with GPS Speedcontrol. The IceStriker has the most efficient and economic control system on the market.

The Spreader comes with a color screen controller with multi programmable parameters. Optionally it can transfer online tracking data to the HillTip HTrack™ Tracking system. The spreader comes in grey color as standard.

<https://www.youtube.com/watch?v=3eycwY5zGTM>

*A 12-volt motor is mounted inside a sealed weather-resistant enclosure.

*Vibrator prevents bridging and de-icing material from clogging by shaking the inverted Vee.

*Hopper body includes molded alternate license plate area

*Includes an accessory wire for optional work light, beacon light and rear camera that can be activated from the standard controller.

*Salt liquid level check for optional liquid system, also includes electronic sensor.
